SUMMARY

Staff Mobile Engineer with 5+ years shipping cross-platform products in Flutter and React Native. At 10Pearls, led two AI app launches, put Clean Architecture and MVVM in place for a 6-engineer codebase (40% faster feature onboarding, 55% fewer cross-module merge conflicts), and cut release-build UI jank from 18 dropped frames per second to under 2. Ships with Firebase, CI gates, and App Store and Play Store releases.

EXPERIENCE

AlhadiTech 18 Oct. 2026 – Present

Staff Mobile Engineer Lahore, Pakistan

- Promoted from Senior Flutter Developer after completing probation, effective 18 October 2026. Other terms of employment unchanged.

AlhadiTech 16 July 2026 – 16 Oct. 2026

Senior Flutter Developer Lahore, Pakistan

- Joined as Senior Flutter Developer and completed the probationary period on 16 October 2026.

10Pearls (Pvt.) Ltd July 2025 – May 2026

Senior Software Consultant Lahore, Pakistan

- Spearheaded React Native development for two AI-powered products (AI Assessment Kiosk and AI Photo Editing Suite), launching both on the App Store and Play Store within the agreed deadlines.
- Instituted Clean Architecture with MVVM across a 6-engineer codebase, which accelerated new feature onboarding by 40% and decreased cross-module merge conflicts by 55%.
- Diagnosed three rendering bottlenecks with Flipper and React DevTools, then optimized state management and bridge calls, reducing UI jank from 18 dropped frames per second to under 2 in release builds.
- Integrated Firebase Authentication, Cloud Messaging (FCM), and Crashlytics, achieving a 99.5% push notification delivery rate and eliminating undetected crash incidents for two consecutive quarters.
- Ran bi-weekly code reviews for four engineers, raising unit and UI test coverage from 42% to 75% and cutting the average pull request review cycle from four days to two.
- **Projects:** Semieta Site Access, AIMS+

10Pearls (Pvt.) Ltd June 2023 – June 2025

Software Consultant Lahore, Pakistan

- Developed a smart EV charging network in React Native, with Bluetooth device control and real-time session telemetry, reaching over 10,000 monthly active users across three countries within six months of release.
- Engineered real-time messaging and video for an enterprise communication platform in React Native, holding over 500 concurrent users with average call-setup latency below 200 milliseconds.
- Delivered a timezone-aware enterprise resource booking system for 200+ staff across five offices. Multi-timezone conflict detection reduced double-booking incidents by 30%.
- Fixed 12 state-management regressions caused by race conditions in asynchronous API calls, using structured Redux middleware, and decreased the ANR rate by 35% over two sprints.
- Raised unit, UI, and API test coverage from 30% to 68%, which enabled a GitHub Actions CI gate that blocked 95% of regressions before they reached QA.
- **Projects:** Healthacademia, Mplace, Staftr, Pando Electric

10Pearls (Pvt.) Ltd June 2022 – June 2023

Associate Software Consultant Lahore, Pakistan

- Built a medical exam prep app in React Native with 500+ question sets, adaptive difficulty, and a timed simulation mode. It reached 8,000 downloads and a 4.4-star rating in the first quarter after launch.
- Re-architected an e-learning quiz engine, moving from synchronous callbacks to asynchronous loading, which halved quiz-screen load times and improved 30-day retention by 20%.
- Specified and integrated more than 15 REST endpoints with 3 backend engineers, using versioned API contracts and keeping zero breaking changes across 4 staged rollouts.
- Took a freelance marketplace in React Native from concept to App Store and Play Store release in four months. It reached a 4.6-star rating from 300+ reviews within six weeks of launch.
- **Projects:** 10Pearls University, Jeenie

Wishsol Pvt Ltd Apr. 2021 – May 2022

Junior Software Engineer Lahore, Pakistan

- Built 3 React Native clients that integrated REST APIs with backend systems, shipping 8 feature releases over 13 months while completing a full-time Computer Science degree at NUST.
- Contributed to a Clean Architecture refactor under senior supervision, reducing redundant component code by 25% across 2 production applications.

Techylem Solutions Pvt Ltd May 2021 – Sept. 2021

Web Developer Intern Lahore, Pakistan

- Maintained Flutter apps for Android and iOS, triaging 15+ defects and improving stability across 2 release cycles.
- Resolved performance issues in production builds, cutting average screen render time by 20%.

EDUCATION

National University of Sciences and Technology (NUST) Aug. 2018 – May 2022

Bachelor of Science in Computer Science Islamabad, Pakistan

PROJECTS

10Pearls University | *React Native, TypeScript, Firebase, Redux/Zustand*
- Enterprise learning app with shared state, crash reporting, analytics, and push notifications. Play Store | App Store

Pando Electric Gen 2.0 | *React Native, TypeScript, MVVM, Amplitude, Sentry*
- IoT energy dashboard on Clean Architecture, with polling fallbacks for telemetry. Play Store | App Store

Healthacademia | *React Native, TypeScript, Firebase, Sentry*
- Exam-prep client with Firebase onboarding and API feature flags. Play Store | App Store

Mplace | *React Native, TypeScript, Redux, RTK Query*
- Legal-review staffing app with time tracking. Reduced dropped frames through profiling and integration tests. Play Store | App Store

Staftr | *React Native, TypeScript, app flavors, Bitrise*
- PwC staffing app. Rebuilt the Mplace UI to PwC guidelines and upgraded React Native from 0.72 to 0.81 for Android 16 KB pages. Play Store | App Store

Jeenie | *Flutter, Dart, Riverpod/BLoC*
- 24/7 live interpreting client. Call state in Riverpod and BLoC, with Firebase diagnostics. Play Store | App Store

Semieta Site Access | *Swift, SwiftUI, MVVM*
- Corporate site-access app with native layouts and security-event analytics. App Store

AIMS+ | *React Native, Firebase, push notifications*
- Exam configuration suite with localized data, versioned APIs, and background sync. Play Store | App Store

SKILLS

Core frameworks : React Native, Flutter, SwiftUI, native modules, TurboModules, JSI

Languages : TypeScript, JavaScript (ES6+), Swift, Dart, Python, Node.js, Django, SQL

State & data : Redux, Context API, Zustand, Riverpod, BLoC, REST APIs, WebSockets, Bluetooth LE

Cloud & DevOps : Firebase (Auth, FCM, Crashlytics, Firestore), Git, Fastlane, GitHub Actions

Architecture : Clean Architecture, MVVM, modular layouts, SOLID, TDD, Agile/Scrum

Spoken languages : English (Native), Urdu (Native)
